Briefly: Two North Park office buildings are sold

An Arkansas-based real-estate investment firm has purchased two office buildings in Omaha. CapRocq Core 2 purchased two buildings in the North Park Business Park, at 2121 N. 117th St. and 2525 N. 117th St., for $13.8 million. The buildings are situated on 12.5 acres and total about 220,500 square feet. The company, which owns more than 800,000 square feet of real estate, also recently closed on a building in Savannah, Georgia. “We were drawn to these areas because of their vibrant economies and the wide range of industries located there,” said Kevin Huchingson, co-founder of CapRocq.
